

Meeting 01

Date:

Meeting Structure

- Look over google technologies as a group
- Determine what could be useful in the scope of our application
- Plan on learning roadmap
 - Who learns what?
 - Team based learning?
 - Simple projects?
- Review team roles
- Software setup
- Plan Stand-ups to encourage progress 2x Weekly (9pm Tuesday, 9pm Thurs?)
 - In person? (Preferable)
 - Discord?

Review Code Style/Version Control Flow

- Agree as a team on standards
- Create Document/Link to document for reference
- Trello --> Cam manages, helps us monitor progress

Setting deadlines

- Setting hard/soft deadlines will encourage progress and have this long term project be less stressful
- Commitment issues/desire to be on the team will affect team progress
 - Trust/Being reliable will play a huge role in our success
